REVOU TECH ACADEMY – DATA ANALYTICS AND GEN AI

Name: Muhammad Y. A.
Rahmatullah
Student ID: 11677930

Final Score	96

Conversion	Score
A	80 – 100
B	70 – 79
C	60 – 69
D	40 – 59
E	< 40

Activity	Score	Hours	Time Allocation	Learning Outcomes
Introduction to Data Analytics and AI	90/100	200	1. Self Study: 92 hours 2. Lecture: 80 hours 3. Weekly Assignment: 4 hours 4. Group Discussion: 12 hours 5. Mentoring: 12 hours	1. Understand the importance and structure of data analytics in a business. 2. Identify business problems and connect them to data analytics for better solutions. 3. Learn key metrics, dashboards, and funnel analysis. 4. Explore AI tools, including CustomGPT, and use them to analyze and visualize data effectively.
Introduction to Data Processing in Data Analytics using AI	90/100	200	1. Self Study: 92 hours 2. Lecture: 80 hours 3. Weekly Assignment: 4 hours 4. Group Discussion: 12 hours 5. Mentoring: 12 hours	1. Understand the importance of statistics in business decision-making and analytics. 2. Learn common statistical techniques for data interpretation. 3. Understand data cleaning and merging techniques for accurate analysis. 4. Apply statistics to perform exploratory data analysis.
Data Processing with SQL using AI	100/100	200	1. Self Study: 92 hours 2. Lecture: 80 hours 3. Weekly Assignment: 4 hours 4. Group Discussion: 12 hours 5. Mentoring: 12 hours	1. Understand database fundamentals and key SQL concepts like primary and foreign keys. 2. Master SQL syntax and functions for querying and manipulating data. 3. Learn advanced SQL techniques for data cleaning, joining tables, and complex queries. 4. Use SQL and AI tools to analyze real-world datasets and solve business problems.
Data Visualisation & Communication with AI	100/100	250	1. Self Study: 100 hours 2. Lecture: 80 hours 3. Weekly Assignment: 2 hours 4. Mentoring: 20 hours 5. Group Discussion on Capstone Project: 30 hours 6. Mentor Assessment: 8 hours 7. Capstone Project Assignment: 10 hours	1. Understand the fundamental theories of data visualization. 2. Understand effective methods for visualizing analyzed data. 3. Understand how to communicate findings and recommendations for the company based on data analysis. 4. Understand the use of AI-based tools to assist in the data analysis process.
Career Development with AI tools	100/100	50	1. Self Study: 35 hours 2. Lecture: 10 hours 3. Weekly Assignment: 1 hour 4. Mentoring: 2 hours 5. Group Discussion: 2 hours	1. Equip participants with necessary soft skills for tech careers 2. Deepen and nurture a growth mindset for continuous learning 3. Prepare job-seeking assets for tech companies 4. Understand essential job-seeking tools in tech companies
